

Hello First Georgia Customer,

We are pleased to announce a new way to access your First Georgia Bank Statement. Beginning **December 15th, 2010** you can access your statement via First Georgia's Online Banking. Previously you had to log on to a separate site to view your statement. Now you can easily access your statement by simply logging on to your online banking account. You will receive a monthly email notification prompting you that your statement is available, then go to First Georgia's Online Banking at www.firstgabnk.com and log in to view.

Enhanced features include:

- A single sign on. Once you access your online banking, you can view your checking and savings statements without an additional sign on!
- View a rolling 13 month history of bank statements starting with your new enrollment!
- Now savings accounts are available for E-statement enrollment!
- It is easier than ever to enroll in E-statements! You can sign up on the spot with your local CSR when opening a new account or if you want to convert other existing accounts to E-Statements.

Previously viewed statements will still be accessible with your old log on for a 90 day period. After that time, statements will no longer be viewable. We recommend you print out any statements needed for record retention purposes.

If you have any questions or concerns, please contact your local office today.

Sincerely,

Your First Georgia Banking Family
